Dear Bob,

I had to write and thank you for your tenacious persistence in working with the Management at Interlock Structures until they understood the benefits of hiring someone with my diverse background. The only way you could have accomplished that was by the thoroughness in which you conducted your interview with me on the phone.

By taking the time to inquire about the diversity of my career history, you were able to comprehend exactly why I would be the perfect candidate for the position, even if no one else could! And you stayed the course until they did understand!

In my experience with "Headhunters" I don't believe that's ever happened to me before. It wasn't just another placement, it was a strategic move for my benefit, as well as Interlock.

Eventhough my background is different from most of the candidates you place, I will recommend you to all creative types across the board, to help in their job search, because of your ability to see over, threw, beyond and outside the box.

Thanks Bob, Lisa
